

# NEWOOD® Moulding

*is an innovative moulding that helps homeowners and builders achieve professional results in much less time. Here's why:*

## Unique features of our fluted and non-fluted 3-in-1 Door Sides:

- Rosette, Casing and Plinth are all in one piece.
- Save installation and finishing time.
- Only three parts to trim one door side.

## Unique features of our one piece Architraves available in six patterns:

- No more job site build up.
- No alignment problems. Architraves moulded as one piece.
- Save cutting, installation and finishing time.

## Unique features of Cut-to-Size Program:

- All parts are cut to fit your opening.
- Optional: 45° cuts and fabricated ends on Architraves and Sills.

## Crown, Casing, Base, Cove and Chair Rail options:

- Matching lineal moulding species in a wide variety of patterns.

*All of the above are offered in multiple species and primed MDF lite.*

*With NEWOOD Moulding, achieve professional results in much less time...*
