

2-1/8" x 6-1/4"

Actual size of ARC-110

The ARC-110 is our largest Architrave which projects a high quality, substantial look and feel. And since our innovative Architraves are moulded as one piece, we help homeowners and builders achieve professional results in much less time. This attractive pattern eliminates the need to layer 3 to 4 patterns on the job site. Ships with or without 45 degree returns. See back for additional information.

The ARC-110 shown at actual size:
2-1/8" thick x 6-1/4" high made from 38# light weight MDF

Our one piece **ARCHITRAVES 108, 109 and 110** are unique in the market. They require no build up so they take less time to install and finish than Architraves that require layering of multiple pieces. Architraves are available in random length or cut to an exact length, with or without 45 degree cuts or fabricated ends.

ARC-110
2-1/8" x 6-1/4"

ARC-109
2-1/8" x 5-1/2"

ARC-108
2-1/8" x 4-3/4"

ARC-113
1-1/8" x 5"

ARC-112
